

## Modifications

At DBCS Containers Ltd we are specialists in container modification to customer specifications. Through our quality container modification we can offer ideal solutions for:

- Site facilities (offices / lunchrooms / storage / workshops)
- Workshops
- General on or off site storage
- Hazardous Materials Storage (to specification)
- Sleepouts
- Site accommodation (Off Shore)

DBCS offer the following container refurbishment options:

- Sand and Paint.
- Sweep sand blast, under coat and paint.
- Full sand blast, under coat and paint.

The choice is offered to suit different situations from workshop storage solutions which are likely to suffer from higher level of wear and tear to site office locations which require a higher level of durability and appearance.

At DBCS Containers Ltd container modifications can consist of the the following options, although this list is extensive it is not exhaustive and therefore if you have other requirements for specific customisation please contact us and let us know what you are looking for:

#### Windows:

- Push out windows.
- Sliding windows.
- Security grills.

#### Doors:

- Double opening doors.
- Single opening doors.
- Sliding doors.
- Ranch slider doors.
- End or side opening doors.
- Curtain sliding doors.

The sliding door modification shows fully welded interlocking frames with security lock boxes.

#### Linings

- A full range of internal linings to suit customer application e.g. office or storage.

#### Fittings

Power communication and associated fittings to suit application and needs.
