

## Modularised kitset Buildings

Module kitset buildings:

- Lock together.
- Are collapsible.
- Easily transported by truck, rail or shipping.
- Easily assembled at required location.
  
- Suitable for single or multiple configurations.
- Provide stackable solutions.
  
- Can be disassembled and relocated for use elsewhere.

Ideal for off shore construction projects, temporary accommodation, secure storage, kitchens, or office solutions.

Stacked or side side multiple units.

Assembled units can be moved by forklift using pockets in base.

Multiple units bolt together and adjoining walls removed to create larger areas.

Units can be disassembled and packaged for ease of shipping.

Strong Modular Prefabricated construction.
